

CHECKLIST FOR REVIEWERS

- You have expertise in the topic addressed in the manuscript
- You have disclosed any potential conflict of interest
- You have respected the confidentiality of the review process as well as the proprietary rights of the authors
- You have maintained your anonymity and the double-blind review
- You have completed the online review form, both questions and comments
- You have adhered to the deadline of 30 days or notified the Editorial Office of a delay
- Your review is collegial, in purpose and tone
- You have provided feedback to the authors that will help them improve their work
- You have evaluated the manuscript according to:
 - Scope
 - Scientific conduct (ethical approval, plagiarism and conflicts of interest)
 - Content (novelty, significance, title, abstract, literature, methods, interpretations and conclusions, number of references)
 - Presentation (style, length, structure, referencing, figures, tables, supplementary material)
- You have provided a clear recommendation to the Associate Editor
